9th February 2010

Dear Parents,

Subject: CAUTION AT DROP OFF POINT

The Health and Safety of students are two important factors that we consider most at Pristine Private School. We have always concentrated on these issues and would like to inform the parents to be more cautious at the drop off point at the Junior Gate and Gate No. 1.

Kindly drop your wards off from the service road connecting to the front entrance of the school, in order to be safe and not hinder the other vehicles as well as the pedestrians. **Do not block the Main Road nor the Service Road** as we have been warned by the RTA. Kindly note, the service road is a NO ENTRY Zone from the front side of the school. You may enter the service road from the rear side of the school, come along the side of the public bus stop and reach the Junior Gate at the front entrance.

During the recent inspection, The Dubai Schools Inspection Bureau has brought this to our notice and wants the school to take action against any parent violating this rule, especially when concerning the Safety of Students.

Together with your support we can achieve a safe environment to your child and others while at school.

Thanking you.

The Management
Pristine Private School
