

PRISTINE PRIVATE SCHOOL

TEDEd Club

Since its inception in 2016, our **TEDEd** After School Club has experienced remarkable growth, establishing itself as a platform for nurturing the next generation of TED speakers.

With a focus on clarity of thought, idea development, and impactful presentation, the club has consistently empowered students to discover and share their unique perspectives.

Our club members have not only excelled in presenting their ideas locally, but some have also been selected as speakers on the prestigious TED Talks platform, a testament to the calibre of ideas cultivated within the program.

For the most recent **TEDEd** Talks, professionally recorded in June 2023, capturing inspiring ideas, please scan the QR codes, on the next page to watch our top three students' videos.
